FOR YOUR DREAM PROJECT**

**DESIGN - FABRICATION - INSTALLATION**

# ABOUT US

---

Universal Marble established by Mr. Mohammed Aslam Qureshi, who was born and raised in a stone business family and has been working in the United Arab Emirates stone industry since 2003.

Universal Marble specializing in the fabrication and installation of natural stones, engineered stones, and quartz products. Our focus is on understanding customer vision for the finished look and helping you make informed decisions about the materials that best suit your needs for durability and performance. Our offerings include high-quality fabrication and installation of Natural and Artificial Stones. We believe that quality products can transform any project into a beautiful masterpiece.

At Universal Marble, we are dedicated to providing the best customer service, making each customer's experience as pleasant as possible. Many of our clients come to us through referrals from satisfied customers. From our skilled staff to our highly skilled fabricators and dedicated installers, every Universal Marble employee treats each job as if it were for their own home. We pride ourselves on delivering the highest quality work and service to each client, whether it's a small bathroom countertop or an entire house. Each project receives the highest level of service and attention to detail. We stand behind all our work with a solid commitment to providing the greatest value of your investment.

Our employees are highly experienced, always available for consultation, and welcome questions about your specific needs and requirements. Our goal is to be the leading manufacturer and installer of the best quality natural stones, with courteous customer service.

---
